

Friends and Family Test

Thank you to all of you who took the time to feedback on your experience at Stalbridge Surgery. Here is what you said:

Your feedback is very important to us and enables us to ensure that patients are satisfied with the service you receive and that we are constantly able to deal quickly with any issues you may have with us.

If you would like to feedback to us using this site, please use the following link:

<http://stalbridgesurgery.co.uk/rate>. You can complete this after any/every encounter with the surgery, whether face to face or by phone. Ask at our reception desk if you would prefer to complete a manual form while you are in the surgery and post in our post box provided.

These are some of the comments that you left for us:

- The best surgery in Dorset. All reception staff, nurse practitioners, doctors, practice nurses and office staff are all kind, helpful and listen to patients. Friendly and happy. Thank you all so much.
- Stalbridge Surgery is a brilliant practice, cannot be faulted in any shape or form
- Very impressed with the efficiency of the surgery and patients ability to obtain appointments in reasonable time. The care received is very good indeed
- We have always received superb and friendly service and advice from this surgery and all the staff involved. We definitely would not change to another surgery
- Surgery generally very good but the schoolgirl behaviour of the reception staff in the mornings is very annoying. I was in recently and they were joking and laughing a lot which looked bad
- Very friendly and helpful. Referrals quick and efficient
